

Creative Couplets

Write rhythmic patterns to these couplets. Sometimes it's good to try composing them in a couple of different time signatures!

1. Building blocks all over the place
The toy room gets so messy these days!

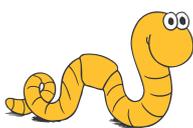

2. One morning I woke to see the dew
The flowers were blooming the day was new

3. Trombones, trumpets, drums and sticks
The band's not complete without all of this!

4. Too many cooks spoil the broth
Or so the saying goes.

5. Marching around in my Batman clothes
I have such fun all day!

6. This is couplet number six
But we've not had enough practice at this!

7. Just one more verse, now seven we've had
So this is the last, I bet you're glad.

HOT TIP:

Your rhythms should always be _____ or _____ bars long.
If you are one bar short, tie the last note over to the last bar,
or use rests!
